

Introduction

Power BI Analyst | Data Analyst | Analytics and Insights Analyst

Data Analyst with 6 years of experience in Business Intelligence, Supply Chain and Finance, specializing in data analysis, reporting, and process improvement. Throughout my career at companies such as Mondelez, The Coffee, and Volvo Group, I have leveraged data to support decision-making and drive operational efficiency.

My experience includes developing dashboards and reports in Power BI, Looker, and Excel, transforming ERP data into actionable insights, and tracking key business and Supply Chain KPIs. I am proficient in SQL for data extraction, transformation, and analysis, and have worked with demand planning, inventory management, and performance monitoring.

To further strengthen my analytical skills, I completed a postgraduate degree in IT and Data Analytics at Queensland University of Technology, Australia.

Education

- **Bachelor of Science, Accounting - Federal University of Paraná - UFPR (2018-2021)**
- **Post-graduate Degree in Information Technology and Data Analytics - Queensland University of Technology - QUT (Brisbane, Australia) (2025-2026)**

Experience

Role: Supply Planning Analyst - Mondelez International (Feb 2025 - Jun 2025)

- Maintained Power BI dashboards used to monitor inventory coverage, supply consumption forecasts, stock levels, improving visibility of inventory KPIs for Supply Planning teams.
- Developed and updated monthly forecasts for imported materials based on consumption trends, demand patterns, and business requirements. Also, collaborated closely with procurement, supply chain, and operations teams to ensure the timely availability of imported materials.

Role: Supply Chain Analyst - The Coffee. (Sep 2021 - Feb 2025)

The Coffee is a coffee shop franchise startup, with over 200 stores in Brazil and 35 in Europe. I had the opportunity to join the company during its first year of major expansion, participating in the implementation of the Supply Chain department.

- Managed inventory of all company's warehouses across Brazil and Europe, analyzing, maintaining and reporting the warehouses KPIs such as OTIF, OTD, savings, stockouts, forecast accuracy and inventory accuracy using dashboards and data analysis.
- Data Visualization with PowerBI, Looker and Excel: development of dashboards for the Supply Chain area (Warehouse, Procurement and Transportation). Built Inventory Dashboards, maintained KPIs, extracted, transformed, and validated Supply Chain data from the ERP system to support strategic initiatives.

- Demand Planning: led demand planning and product distribution of 4 warehouses, analyzing and maintaining forecast statistical accuracy metrics (WAPE, MAPE, BIAS), analyzing both sell-in and sell-out weekly sales, across different cohorts.

Role: Finance Controllership Intern - Volvo Group (Feb 2020 - Sep 2021)

- Responsible for assisting the Treasury and Accounts Payable team in developing automation (Excel macros) and improvements in the Invoice Processing Flux on SAP ERP. Being part of an International team, I had daily professional experience in English, keeping contact with IT and accounting personnel from India.
- Activities: SAP ERP, PowerBI, Macros (VBA).

Role: Audit Intern - State Department of Justice (Oct 2018 – Dec 2019)

- Supported auditors in accounting audit activities and compliance reviews.

Role: Accounting Intern - FSI Consult (Apr 2018 – Oct 2018)

- Performed accounting and financial support activities.

Role: All-rounder - Taro's Ramen Restaurant (Jul 2025 – Feb 2026)

- While studying my post-graduate degree in Data Analytics in Australia, I had the opportunity to work part-time in a Japanese restaurant, doing overall restaurant staff activities and customer service.

Languages

Fluent English: IELTS Academic Certificate - C1 Level (fluent). Professional experience in English (Australia and Volvo Group).

Intermediate Spanish

Skills

- **BI & Visualization:** Power BI, Tableau, SQL, Big Query;
- **Advanced Ms Office:** Excel, VBA, Word, Power Point;
- **Programming:** Python (Intermediate), R (Basic);
- **ERP:** SAP, Odoo.

Courses

- **Google Data Analytics Professional Certificate:** At this course, I applied SQL, BigQuery and Tableau in hands-on analytics projects involving data extraction, transformation and visualization. I also gained practical experience in data-driven decision-making. Credential: DP4KS8MMMSB6.
- **White Belt Lean Six Sigma – Binghamton State University of New York:** Completed training in Lean Six Sigma fundamentals, focusing on process improvement.
- **AT101 - Transactional Analysis Course (UNAT-BRAZIL):** Introduction to Transactional Analysis theory. (Method for improving social interactions between people in business and industry).

Volunteering

- **President of Accounting Students' Academic Centre (Nov 2019 – Nov 2020):** Led the organization of academic events, book donation campaigns, and volunteer initiatives. Coordinated activities between students and external partners to support student engagement and community outreach.
